Announcing the WHiSSPR Advisory Newsletter

The OPN-Digital Transparency Lab (OPN-DTL) presents at the apex of Transparency Law, Open Source Software and OPN – Zero Proof Notice (**killer notice**) Governance, incorporating the engineering achieved to date.

OPN DTL is dedicated to advancing digital privacy transparency to enable authentic consent for individuals to control their own data flows. Since 2012, DPD-Legal Hackathon ([vid-clip](#) about engineering the consent receipt), has achieved key milestones to create consent as a data control standard, marking our progress every year on international data privacy day.

This year we launch the WHiSSPR-Advisory featuring: WHiSSPR Reports; upcoming events; news; and community signposts to channels, groups and discussions. Sign up for this target Advisory at least once a quarter at the transparencylab.ca/whisspr web page.

OPN WHiSSPRR – Rant session

28 January 2024

Digital Governance Capacity of Bill C27 {15%}

The first WHiSSPR Report and Ranting (WHiSSPRRRing) session took place for this report. Privacy and Identity industry leaders came together to comment on WHiSSPR research to both anticipate and identify the significant digital identity, AI and privacy risks facing society today.

We were thrilled to host a fire side chat with the esteemed leaders of the privacy and identity industry:

Joni Brennan

President of DIACC ([Digital Identity Authentication Council of Canada](#))

Sharon Polsky

President of PACC ([Privacy and Access Council of Canada](#))

Gigi Agassini

[ANCR WG](#) Co-ordinator & DTL Program Manager

Surprise guest: **Susan Morrow** ([Avoco Identity](#)), a fellow Digital Identity trust anthropologist and expert Ranter).

Thank you to everyone who took part and contributed to create such a special first WHiSSPR Rant.

The WHiSSPR Report uses the ANCR TPS ([Operational Transparency Assessment Scheme](#)) as an approach to evaluate the proposed Canadian Privacy Federal Law, Bill C27, and analyse its digital governance capacity to modernise digital privacy.

OPN Commons Symposium

22 September 2023

The [OPN Commons Symposium](#), held on September 22 in Montreal, marked the day consent legislation came into force in Canada.

It was followed by a 2 day [OPN-Unconference](#) hosted by Tibi and Sensorica, a community makers lab that is part of an international network. Thanks, Tibi, for the space to convene, the warm welcome and the introductions. The symposium bought together key stakeholders to discuss and exchange insights on the state of data control with consent in Canada.
